It counts every second while you are in game We use this one since we have to exit the game multiple times to duplicate, which can cause a little bit of lag for some different people, and can cause unwanted time loss.. 3 years ago And here we have another run! I know I can still do a run under 5 minutes In-Game time, so I will keep on going!:) The White timer is the In-game timer, which is the one that mainly counts for this run..
